

Offer a checklist

CHECKLIST

Every business can offer some form of checklist for customers. People who shop or visit your office typically forget one or two items. Print a checklist for your customers with your vital products and services. When you do, they'll reward you with more business.

Notepads

NOTEPADS

Want to gain attention and keep your name in front of your customers? Notepads are the perfect promotional item. It's also a great way to give something away FREE. We can help you design a notepad that your customers will love.

Overs / Unders

OVER/UNDER

The printing industry is famous for confusing customers by quoting each job with a "plus or minus" factor of 10%. They will charge you for what they print, not what you asked for. They can quote a cheaper price and then charge more for "overs". Avoid this by demanding "no overs/unders" print orders.
